

\$86,400 Exercise

Student:

You have \$86,400.00 to spend anyway you wish.

The only restrictions are that you cannot bank any money and whatever you do not use, you lose.

Use the space below to map out how you will spend the \$86,400.00

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Mentor:

Discuss why and how they spent the money the way they did. Explain that 86400 are the number of seconds we have each day and that as often as possible they should consider spending their time on things that are important to them as they did with their money.
